

“

# **TETTENHALL COLLEGE IS LIKE A SECOND HOME TO ME.”**

*Vittorio from Hong Kong*

**Vittorio is studying A Levels in  
Computer Science, Economics,  
Business Studies**

In the past 5 years I have learned so much academically, socially and also about myself.

All of my teachers are so kind and supportive and encourage us to do the very best in everything we do. This is a unique study environment due to the small numbers of students in each class so teachers are able to devote more time and effort to individuals who need extra help, which is always really positive for students' progress and success. They have helped me so much.

Tettenhall College is a British boarding school but there are also interesting students from other countries around the world, which is great. The School always has a lot of activities which help us all to get to know each other and make friends. Even if someone is not so confident, they will settle in and make friends easily.

The boarding house where we live is a place filled with care and joy. Students all get along well with each other and when any of the younger pupils are struggling with anything there are always older students who are willing to help and listen. Staff in the boarding house are always there 24/7 when you need them, they also do a great job with creating a caring environment in the house so everyone feels safe and free to be themselves and develop in whatever direction they want to.

My advice to anyone thinking of coming to Tettenhall College to study? At this School there is everything that you could possibly need in order to do well academically: wonderful teachers and a great learning environment. If you want to do well, you will succeed here. But more than that, we don't only learn what is written in books, we learn about ourselves and others.

Believe me, you will love being here!

“

***I WAS IMMEDIATELY  
ATTRACTED BY THE  
BEAUTIFUL CAMPUS &  
SCHOOL BUILDINGS”***

*Emily from Hong Kong*

**Emily is studying A Levels in Art and Design, Photography,  
Economics and an Extended Project Qualification (EPQ)**

I want to share with you what I have learnt from living in the UK. Three years ago I decided to go to school here, after having completed middle school in Hong Kong, and so I joined Tettenhall College.

I was concerned about how I would adapt and communicate with people of different nationalities and whether I would get used to being separated from my family and friends. But when I finally decided to fly from Hong Kong to England and I arrived at this British boarding school, I was immediately attracted by the beautiful campus and school buildings. The teachers, the boarding-house staff and all of my classmates were so helpful and very quickly helped me get over any problems or doubts.

The boarding school environment is very different to school in Hong Kong, but it has been great. There is such a good atmosphere in class which has helped me to get along with my classmates and has helped me to learn so much. I am grateful to the two visual arts teachers who have really inspired my artistic thinking and developed my skills in art and I was delighted to get the top Grade 9 in GCSE Art - which has really helped my confidence.

I've made friends with a lot of English pupils but also people from other countries and cultures. I'm really grateful to have had this opportunity to study here - I'm very happy here at Tettenhall College! When I have finished my A Levels I hope to go to the University of Chester or Arts University Bournemouth to study Fine Arts.
