

# SEX AND RELATIONSHIPS EDUCATION POLICY

<b>APPLICABILITY:</b>	Academic Staff
<b>REVIEW DATE:</b>	September 24
<b>AUTHOR:</b>	Assistant Head Pastoral
<b>REGULATORY REQUIREMENTS:</b>	A5 (part)

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

RSE involves a combination of sharing information, and exploring issues and values.

RSE is not about the promotion of sexual activity.

1. The school provides relationships and sex education in the core curriculum for all pupils, in which pupils are encouraged and guided by moral principles and taught to recognise the value of family life. The science-based aspects are taught through biology lessons and the wider aspects including relationships and respect are delivered through the PSHE programme. In accordance with the law the biological aspects of human reproduction remain compulsory for all pupils, but parents may withdraw their children from any other part of the sex education provided without giving reasons. Pupils aged 16 (or within three terms of being 16) have the right to choose for themselves.
2. Further guidance for parents on why schools provide RSE can be obtained here Relationships, sex and health education: guides for parents - GOV.UK ([www.gov.uk](http://www.gov.uk))
3. The PSHE programme includes topics on developing healthy and respectful relationships that are revisited in an age-appropriate manner each year as pupils move through the school.
4. It is recognised that young people should be offered the opportunity to receive a well-planned programme of sex education, which is part of the Personal, Social and Health Education programme.

## AIMS

5. To provide pupils with responsible and relevant Sex and Relationships Education as an integral part of their progress to adulthood and to view their relationships in a healthy manner by:
  - a. encouraging personal responsibility in all forms of behaviour.
  - b. encouraging self-esteem and self-confidence.
  - c. encouraging respect and consideration for others including issues of consent.
  - d. promoting understanding of sexual attitudes and behaviour and the importance

Last Review Date: 5 Sep 23  
Next Review Date: 5 Sep 24

- of sensitivity to the needs and views of others.
- e. providing knowledge about loving, stable relationships.
- f. providing knowledge and understanding of the physical and emotional changes they will experience and offer information and strategies to empower them to make informed and responsible decisions.
- g. providing knowledge of the process of human reproduction and;
- h. providing support and information for pupils and their parents.

## CONTENT

6. Sex and Relationships Education (SRE) provides knowledge and develops the skills and attitudes with which pupils can manage their lives in a responsible and healthy way. The aim of SRE is to give young people the information they need to help them develop healthy, nurturing relationships of all kinds, not just intimate relationships. It should enable them to know what a healthy relationship looks like and what makes a good friend, a good colleague and a successful marriage or other type of committed relationship. It should also cover contraception, developing intimate relationships and resisting pressure to have sex (and not applying pressure). It should teach what is and is not acceptable behaviour in relationships.

## THE ROLE OF PARENTS

7. The teaching offered by Tettenhall College will be complimentary and supportive of parental views, roles and responsibilities. This policy is shared with parents via the school website. In a situation where parents disagree with our approach to sex education, they have the right to withdraw their children from the sex education provision by informing the Assistant Head Pastoral, in writing, who will then make appropriate arrangements. Medical staff run the sex education lessons with the support of tutors, and they make use of specialist resources that are age appropriate as recommended by government health services.

### Preparatory School

Parents have the right to withdraw their children from the [non-statutory/non-science] components of sex education within RSE. Requests for withdrawal should be put in writing and addressed to the Head of the Preparatory Division. Alternative work will be given to pupils who are withdrawn from sex education.

## THE ROLE OF STAFF

Staff are responsible for:

- Delivering RSE in a sensitive way
- Modelling positive attitudes to RSE
- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the [non-statutory/non-science] components of RSE

Last Review Date: 5 Sep 23  
Next Review Date: 5 Sep 24

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the headteacher.

All teachers within the school are responsible for teaching RSE

8. When outside speakers are brought in a teacher must be present to monitor the content of any presentation. If a member of staff is approached by a pupil for specific advice on aspects of sexual behaviour, he/she should encourage the pupil to seek advice from parents and/or a relevant health service professional such as school nurse, family GP or family planning service.
9. Where circumstances are such as to lead staff to believe the pupil has in mind a course of conduct which is likely to place him/her at moral or physical risk, or in breach of the law, staff have a duty to ensure that the pupil is aware of the implications and is urged to seek advice as above. In such circumstances staff must inform the Headmaster and the Assistant Head Pastoral. Staff must be careful not to guarantee confidentiality but to use their professional judgement, consulting colleagues if appropriate.

### **PUPILS WITH SPECIAL EDUCATIONAL NEEDS AND DISABILITIES**

10. Pupils with learning difficulties and disabilities may physically be developing at a different rate to their mental capacity, as such this can make them particularly vulnerable. Each child with SEND has an IEP and their tutor will consult with their support teacher before they engage in the lesson. The content may be modified and any other reasonable adjustments to meet their needs.

### **KNOWLEDGE AND INFORMATION (LEARNING OUTCOMES)**

11. KS2 – Learning how to resolve relationship problems; learning that families are varied and differences must be respected; understanding physical and emotional boundaries in friendships; exploring the physical and emotional changes in puberty; developing an understanding of families, including marriage and what to do if someone feels unsafe in their family; how a baby is conceived and develops and exploring the theme of personal identity, gender identity and body image.
12. KS3 - Puberty, personal safety, family life and relationships, friendships and love, conception and birth, contraception, HIV/AIDS, safer sex and the law, consent, life stages, different faiths and cultures and sexualities.
13. KS4 - Birth processes, abortion, genetic inheritance, sexually transmitted diseases including HIV/AIDS, sexual lifestyles, prejudice and stereotyping, consent, the effect of the media and pornography on shaping sexual attitudes, different faiths and cultures and sexualities.
14. KS5 - Sexual health, making safe choices (lessons delivered by surgery team) healthy and controlling relationships, online behaviour and social media. They will also learn about health screenings; breast and testicle examinations.

### **PSHE PROGRAMME**

15. The PSHE curriculum encompasses personal management tools, workload, responsibility, time management and healthy lifestyle. It also includes relationships, social

Last Review Date: 5 Sep 23  
Next Review Date: 5 Sep 24

and emotional well-being, sex education, the risks of drug use, mental and physical health as well as career research and guidance.

### **Relationships and Sex Education within PSHE**

16. RSE is taught through the tutorial sessions and extended PSHE sessions.
17. Medical staff run the sex education lessons with the support of tutors. They make use of specialist resources that are age appropriate as recommended by government health services.
18. All pupils will engage in the Health and Relationships Education programme. Parents may ask for their child to be withdrawn from some or all of the sex education element. Once we receive such a request, we will discuss it with the parent and provide more information about the lesson to assist in making that decision. Pupils aged 16 (or within three terms of being 16) have the right to choose for themselves.

For specific detail about how the statutory requirements are embedded into the PSHE curriculum in senior school, please refer to appendix 3.

#### **Year schedule within PSHE schemes of work; specific aspect of relationships and sex education**

<b>Year 6</b>	<p>The changes experienced during puberty, how a baby is conceived and develops.</p> <p>Learning to resolve conflict, through negotiation and compromise; about respect, understanding that everyone deserves to be respected.</p>
<b>Year 5</b>	<p>Developing an understanding of families, including marriage and what to do if someone feels unsafe in their family; learning that dealing issues can strengthen a friendship.</p> <p>Exploring the emotional and physical changes of puberty, including menstruation.</p>
<b>Year 3-4</b>	<p>Learning how to resolve relationship problems, effective listening skills and about non-verbal communication.</p> <p>Exploring identity through groups we belong to.</p> <p>Learning that families are varied and differences must be respected; understanding physical and emotional boundaries in friendships.</p> <p>Developing emotional maturity; learning that we experience a range of emotions and are responsible for these; appreciating the emotions of others.</p> <p>Exploring the physical and emotional changes in puberty</p>

### **Values and Beliefs.**

19. The knowledge and information mentioned in (a) will be delivered in a context in which the following values will be encouraged:

- a. respect and value for self and others;

Last Review Date: 5 Sep 23  
Next Review Date: 5 Sep 24

- b. understanding and sensitivity towards the needs and views of others;
- c. responsibility for one's own actions; and
- d. responsibility to the family, School and wider community.

SRE will be delivered in a way that complies with the Equal Opportunities Policy; pupils will not be excluded based on sex, age, race, religion, sexuality, disability, SEND etc.

### **Skills and Abilities**

20. The following skills will be encouraged:
- a. communication, including the making and keeping of relationships;
  - b. assertiveness;
  - c. decision making;
  - d. recognising and using opportunities to develop a healthy lifestyle; and
  - e. developing respect for the rights and desires of people they are in a relationship with

### **ORGANISATION**

21. Sex and Relationships Education is co-ordinated and taught by staff including the School nurses and PSHE Subject Leader, who reports to the Senior Deputy Head and Assistant Heads respectively.
22. Sex and Relationships Education will be delivered across science, religious studies and PSHE lessons. Where it forms part of the science curriculum there is no parental right of withdrawal.
23. Teaching approaches will vary as appropriate. For example, in science a factual approach may be appropriate whereas in PSHE moral issues will be explored. This is not to say that the two approaches are mutually exclusive; and a teacher may employ both at his/ her discretion whilst teaching either PSHE or science.
24. Pupil groupings - pupils will be taught in their Year groups for PSHE (i.e. in mixed gender and ability groups). If the need should arise then pupils may be taught in other groupings (for example, split by gender) as appropriate to the specific need.
25. Resources - a wide range of materials are available and can be made available to parents on request.

### **SPECIFIC ISSUES**

26. The value of family life is an important aspect of Sex and Relationships Education and emphasis will be placed on the stability, respect, caring and support available through the family group.
27. The issues of contraception, HIV/ AIDS, sexuality and abortion are part of the Sex and Relationships Education programme. Facts will be presented in a balanced and objective manner. Pupils will be encouraged to consider their attitudes and values with regard to the

Last Review Date: 5 Sep 23  
Next Review Date: 5 Sep 24

values and beliefs mentioned above. They will be made aware of the difference between fact, opinion and religious belief.

28. Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory SRE. Before granting any such request, the Headteacher will discuss the request with parents and, as appropriate, with the child to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. The School will document this process to ensure a record is kept.

29. The Headteacher will discuss with parents the benefits of receiving this important education and any detrimental effects that withdrawal might have on the child. This could include any social and emotional effects of being excluded, as well as the likelihood of the child hearing their peers' version of what was said in the classes, rather than what was directly said by the teacher (although the detrimental effects may be mitigated if the parents propose to deliver sex education to their child at home instead).

30. Once those discussions have taken place, except in exceptional circumstances, the School will normally respect the parents' request to withdraw the child, up to and until three terms before the child turns 16. After that point, if the child wishes to receive sex education rather than be withdrawn, the School will make arrangements to provide the child with sex education during one of those terms.

31. The process is the same for pupils with SEND. However, there may be exceptional circumstances where the Headteacher may want to take a pupil's specific needs arising from their SEND into account when making a decision.

32. The Headteacher will automatically grant a request to withdraw a pupil from any sex education delivered in the Preparatory School, other than as part of the science curriculum. If a pupil is excused from sex education, it is the School's responsibility to ensure that the pupil receives appropriate, purposeful education during the period of withdrawal.

33. The rapidly changing nature of technology means that the scheme of work may require constant updating to reflect the dangers posed by the online world (for example the prevalence and effect of pornography). Updating the scheme of work is the responsibility of the Subject Leader for PSHE and the School nurses.

## **Monitoring and Review**

34. Sex and Relationships Education will be monitored by the PSHE Subject Leader and the School nurses. Changes to the programme will be made as appropriate following review.

### **The Law**

It is important to know what the law says about sex, relationships and young people, as well as broader safeguarding issues. This includes a range of important facts and the rules regarding sharing personal information, pictures, videos and other material using technology. This will help young people to know what is right and wrong in law, but it can also provide a good foundation of knowledge for deeper discussion about all types of relationships. There are also many different legal provisions whose purpose is to protect young people and which ensure young people take responsibility for their actions.

Pupils should be made aware of the relevant legal provisions when relevant topics are being taught, including for example:
